

High Definition Network Video Recorder Storage Expansion

Description

The Avigilon High Definition Network Video Recorder (NVR) Storage Expansion can be used to expand the recording capacity of any Avigilon NVR server. It has enterprise class reliability with a RAID 5 hard drive configuration and redundant power supplies. Both the hard drives and power supplies are hot-swappable for online repairs. The storage expansion has up to a 14 TB effective recording capacity all in a 3U rack mount chassis. It connects directly to a RAID card in NVR server using a SAS cable. A RAID card is included with the storage expansion unit and will be preinstalled when ordered with an NVR server.
