

Avigilon Control Center Release Notes for Integration with AMAG Symmetry v9.x

Released Oct 29, 2019

Release Summary

This integration update adds support for connecting to AMAG Symmetry version 9.0 or 9.1 using HTTPS. It allows live and recorded video to be displayed with analytics bounding boxes and linked to alarms within Symmetry. It also allows for Symmetry events to trigger alarms within ACC.

New Features & Issues Fixed

- Added support for connecting to AMAG Symmetry via HTTPS with configuration file (refer to documentation)
- Fixed an issue where some files were not copied properly during install

Supported versions of ACC

- ACC 6 & 7

Supported versions for AMAG Symmetry:

- AMAG Symmetry 9.x

Known limitations

Purged Avigilon Alarms Still Present in the Symmetry Software
