Avigilon™ Control Center Release Notes for Integration with Gallagher Command Centre

Gallagher Command Centre Integration – Released Dec 4, 2019

Release Summary

This is an update to the previous integration to add support for connecting to Gallagher Command Centre version 8.1. It maintains the ability to view live video from cameras connected to the Avigilon system and control PTZ devices in the Gallagher Command Centre software, view recorded video in the Gallagher Command Centre software, view classified objects detected by Avigilon self-learning video analytics devices, view events from the Avigilon Control Center in the Gallagher Command Centre software and control Avigilon Control Center alarms from the Gallagher Command Centre software. It also allows the user to use a license plate number as a credential in Gallagher.

New Features & Issues Fixed
- Support for Gallagher 7.90/8.0/8.1 software
- Ability to use a license plate number as a credential in the Gallagher Command Centre software
