

One pager

Avigilon Alta and Allegion Wireless Locks

For schools, multi-family properties and commercial orgs that need the flexibility of cloud-based physical security, Avigilon Alta has the solution.

By combining the offline function and reliability of Schlage locks with the cloud benefits of Alta Access, organizations can create a safer environment for their people while streamlining everyday management for admins.

Connect every door to the cloud

Smart interior security:

Ideal for interior and low-traffic spaces, with native support for Bluetooth credentials.

Scale with ease

Easily expand your system to meet changing needs, without expensive wiring and hardware.

Enhanced protection

Secure a wide range of areas, including:

- Interior entryways and common spaces
- Healthcare and educational facilities
- Conference rooms, storage closets and server rooms
- Multi-dwelling common areas and unit doors

One credential for multiple doors

Unlock Schlage-powered doors with Avigilon Alta Bluetooth-enabled mobile credentials, including our fast and reliable Rapid Unlock technology, or use Alta key cards and fobs.

Combined security monitoring

View all activity from one unified dashboard with near-real-time reporting. Receive instant notifications for door ajar, forced open and other events. Adjust lock settings, or monitor device battery life.
