Fact Sheet

Unity H6A PanoPTZ

Expansive views, precise control

Combine 360º vision with no blind spots using the Avigilon H6A PanoPTZ. It uniquely integrates panoramic and IR PTZ features to help detect events, auto-cue, and zoom in on key details. Automated actions can be scheduled to reduce manual effort and boost operational efficiency.

Wide-area coverage, no gaps

Gain comprehensive visibility for large, open areas such as city centers, campuses, or terminals with wide-area panoramic coverage and dynamic PTZ precision in a single camera.

Streamline detection & action

Automate PTZ target prioritization across multiple subjects with intelligent zoom and auto-cue. This focuses on important events by extracting metadata, enabling improved response times.

Expand your field of view

Achieve full situational awareness with a 360º stitched panoramic view, covering 10º above the horizon with no center hole, removing blind spots and enabling lower installation heights.

Drive proactive safety with AI

Gain deeper insights with AI analytics for object tracking, people counting, crowd activity, PPE detection, and directional audio. Spot potential issues early so you can respond with confidence.

Speed up installation

Set up quickly with in-box configuration. No field calibration is needed, as it's factory-calibrated for seamless setup. One person can install it, reducing labor and speeding deployment.

Safeguard your data

Benefit from enhanced security measures like onboard FIPS 140-3 L3 certified TPM and SecureBoot. This helps to protect your system against evolving threats, providing you with peace of mind.
